MATERIALS

- Panel Material: High-grade fabric wrapped around acoustic attenuating foam with plywood core.
- Floor: Open/no floor. The outer frame sits on top of your floor, so your floor will be showing.
- Frame: Powder-coated steel.

INSTALLATION

- Booths only need a normal outlet for power.
- The booths come in about 10 sections, which bolt together. Your dealer will coordinate professional installation that takes about 1.5 hours per booth.

FABRIC OPTIONS

- Medium weave, high-grade
